

## How do I know if my student is turning in their work?

### Check their Google Classrooms

The screenshot shows the Google Classroom interface. At the top, there are tabs for 'Stream', 'Classwork', and 'People'. The 'Classwork' tab is selected and highlighted with a red box and a '1'. Below the tabs, there is a 'View your work' button, also highlighted with a red box and a '2'. Below this, there is an 'Attendance' section with a list of attendance records. Below that, there is a list of assignments with their status. A red bracket on the right side of the assignment list is labeled with a '3'.

3. All of the assignments the teacher has posted will appear. A green check mark means it is something that must be turned in. The third column lets you know the status of the student’s work:

- **Turned In** means the student submitted his/her work
- **Assigned** means the assignment isn’t due yet and the student can still be working on it
- **Missing** means the due date/time has passed and the student did not turn the work in.

**\*\*“Turned in” does not mean the student earned full credit. To check grades, you must log in to your Aeries parent portal.**
